

City of Salisbury Fire Department

INFORMATIONAL BULLETIN 2.11.05

DATE: April 20, 2005
TO: All Fire Department Personnel
FROM: Assistant Fire Chief
SUBJECT: **ROTARY CLUB FIREFIGHTERS OF THE YEAR**

At the Salisbury Rotary Club meeting, on May 10, 2005, the Salisbury Rotary Club Veteran and Rookie Firefighters of the Year will be announced.

Engineer M.D. Lancaster was selected as the Veteran Firefighter of the Year. Marshall has been a loyal department member for 20 years. He holds driver/operator certification in EVD and pumps, and is also working on Aerial certification and fills in as Acting Captain when needed. Marshall is a Level II Instructor and teaches some classes at Station 52 and in Davie County. He regularly volunteers for special activities and assignments such as driving for parades and taking equipment out for other events as well. When hire backs are needed, he is often available to fill in and consistently does a good job on the fire ground and around the station with daily assignments. Marshall loves his job and is a very good co-worker.

FCS T. M. Lowman was selected at Rookie Firefighter of the Year. Matt has been at the fire department 3 years. He has his EMT-P certification, FF I & II, CSR specialist, USAR and Swift water certifications. He regularly teaches for RCCC and works as a pit road firefighter for Lowe's Motor Speedway and is very active in the CERT program as an instructor. Matt has completed some course work for Driver/Operator and is also working on his Fire Science Degree at CPCC. In June, he will begin his Haz-Mat Tech training.

Congratulations go to Engineer Lancaster and FCS Lowman for their contributions to the department and community during the year.

R. D. Fesperman, Assistant Chief
Salisbury Fire Department
